## Professional Summary

UI/UX Designer with over 3 years of experience designing intuitive and visually consistent digital products for mobile and web platforms. Skilled in creating user flows, wireframes, and prototypes using Figma and Adobe XD, with a strong focus on usability and clean interface design. Possesses working knowledge of Flutter, enabling effective collaboration with development teams to ensure precise design implementation.

## Education

### BS in Computer Science

Government College University Faisalabad  
2016-2020

### Intermediate (ICS)

Government Post Graduate College  
Samanabad Faisalabad  
2014-2016

### Matriculation

Civil Pilot School System  
2012-2014

## Work Experience

### Design Tingle

Apr 2025 – Present

Senior UI/UX Designer | Design Leadership & Development Oversight

At Design Tingle, I lead and manage the full design process for mobile and web platforms. My work includes defining the UX direction, building and maintaining design systems, and ensuring design consistency across all products. I conduct user research, create wireframes and prototypes, and translate insights into intuitive, high-quality user interfaces. I collaborate with cross-functional teams to align design goals with product strategy, while mentoring junior designers and optimizing internal workflows to maintain high design standards.

### Primary Inbox

Jul 2024 – Present

Senior Head UI/UX Designer | Design Leadership & Development Oversight

At Primary Inbox, I oversee the complete user experience design process—from research and concept development to final implementation. I establish UX strategies that balance business objectives with user needs and guide the design team in executing them effectively. I work closely with developers and product managers to maintain visual and functional consistency across the platform, ensuring a seamless and engaging user experience across all digital channels

### Voltic

Jul 2024 – Present

UI/UX Designer

At Voltic, I design user interfaces and experiences for AI-based digital products. My responsibilities include conducting user research, developing wireframes and prototypes, and creating clean, effective interface designs that support usability and clarity. I work closely with product managers and developers to ensure that every design aligns with the product's goals, brand guidelines, and user expectations.

### Fiver

Feb 2021 – Present

UI/UX Designer

As a freelance UI/UX designer, I deliver complete design solutions for clients across multiple industries. My work covers user research, concept development, and the creation of responsive web and mobile interfaces. I collaborate directly with clients to understand their goals, design user-centered experiences, and provide detailed prototypes and design assets that support smooth implementation and consistent visual quality.

Design Systems		Interaction Design		
Responsive Design				

## Projects

---

- **Design Tingle** - I lead the design of seamless user experiences for the company, creating engaging digital interfaces that align with business goals. From concept to execution, I ensure high-quality design solutions that enhance the brand's presence and user satisfaction.  
<https://www.designtingle.com/>
- **Voltic.ai** - At Voltic AI, I design intuitive user interfaces for enterprise-level applications, focusing on enhancing user experience and engagement. I collaborate with cross-functional teams to deliver seamless digital solutions that align with business objectives. My role involves creating wireframes, prototypes, and high-fidelity designs for various platforms.  
<https://www.voltic.ai/>
- **PrimaryInbox** - In my role as Senior UI/UX Designer, I created the visual design and user experience in Figma for PrimaryInbox. I collaborated with the development team to ensure the app's minimalist design and productivity-focused features were accurately reflected in the final implementation across both iOS and Android platforms  
<https://www.primaryinbox.ai/>
- **StansBooth** -At StansBooth, I designed the user interface and experience for an AI-powered trading platform that simplifies algorithmic trading for beginners and busy professionals. I collaborated with the development team to ensure a seamless and intuitive user experience across web and mobile platforms. My role involved creating wireframes, prototypes, and high-fidelity designs to enhance user engagement and satisfaction.  
<https://www.stansbooth.com/>
- **21d Detox Regeneration** - Designed the user interface and experience for the 21d Detox Regeneration app, a wellness platform offering a 21-day detox program with recipes, yoga, and meditation. Collaborated with the development team to ensure a seamless and intuitive user experience across Android and iOS platforms. Focused on creating a clean and engaging design that enhances user engagement and satisfaction.
