

Anas Qureshi

UX/UI Designer

I'm a UI/UX Designer who focuses on creating clean, intuitive, and user-centered digital experiences. I turn complex ideas into simple, usable designs by combining strong research, clear thinking, and modern visuals. My goal is always to design products that feel effortless, solve real problems, and deliver value to both users and businesses.

Graphic Designer

As a Graphic Designer, I create visually appealing designs that communicate messages clearly and creatively. I focus on strong layout, balanced composition, and brand consistency across all visuals. Whether it's social media content, marketing material, or branding assets, I ensure every design aligns with the brand identity and engages the audience effectively.

Work Experience

Brandora Design Agency

FEB 2022 - PRESENT TO AUG 2023

Worked as a UI/UX Designer at Brandora, where I handled multiple client projects, created user flows and high-quality UI designs, and delivered clean, user-focused interfaces that matched each client's brand and goals

DEVK SYSTEM

OCT 2023 - PRESENT TO JAN 2025

At Devk System, I worked as a UI/UX Designer on a wide range of projects including e-commerce platforms, blockchain applications, and modern dynamic websites. I translated client requirements into structured user flows, wireframes, and visually polished interfaces. My role involved creating scalable design systems, improving usability, and delivering responsive, high-quality designs that aligned with global design standards and client goals

Sak Vision

FEB 2025 - PRESENT TO OCT 2025

At SAK Vision, USA Branch I worked as a Product Designer, contributing to major projects such as POS systems, SAK Solutions platforms, and Hypermarket websites. I was responsible for designing end-to-end product experiences—from user flows and wireframes to modern, high-fidelity UI screens. My work focused on creating scalable, intuitive, and business-driven designs that supported smooth operations and delivered a strong user experience across all platforms.

Education

BS Computer Science : Kust University of Science and technology Kohat
